A NOTE FROM DR. NADERI

Welcome to The Naderi Center

Thank you for choosing us.

Whether you are coming in for Botox, fillers, Sculptra, a laser treatment or a skin consultation, your visit is about you: your face, your skin and what you would like to see in the mirror.

Every injection at our practice is performed by a physician. Dr. Snodgrass and I take the time to understand what you love about your face and what you would like to change. Then we walk you through all of your options, from a treatment today to the skincare you use at home.

Because our practice is both surgical and non-surgical, we will never steer you one way or the other. You will hear honestly what each treatment can do for you, and what it can't.

Our goal is always a natural result: you, refreshed, and still completely yourself.

I look forward to welcoming you.

Shervin Naderi, MD, FACS
