Thumbtack Spotlight

[Facial Plastic Surgeon & Rhinoplasty Specialist](#)

Provided by: The Naderi Center Rhinoplasty & Cosmetic Surgery

He Knows Nose

It's not their money that matters to me; it's their smile and gratitude.

Dr. Shervin Naderi dedicates his surgical practice and expertise in helping individuals improve and enhance their appearance, confidence and quality of life through professional nasal reshaping surgery. He incorporates his skills and artistic prowess in enhancing the cosmetic appeal and function of the nose. A member of an exclusive and highly specialized group of Board Certified Facial Plastic Surgeons, he specializes in providing balance and harmony to the overall look of his clients.

My plan's to be ultra-specialized so that I could offer the best possible diagnosis and treatments to my patients. I also grew up in a family of two very ethical and responsible surgeons as my parents and I wanted to be just like them. What I do does help people's self confidence and improves their lives...My patients' well-being is my number one goal.

Armed with the most up-to-date and advanced scientific techniques in modern Rhinoplasty, Dr Shervin Naderi devises an individual approach to each patient's surgery, customized to bring out the best possible, realistic and functional results. He lives and breathes these 3 words: specialization, skills, and honesty. He truly believes that the caring relationship you develop with your clients defines you and what your work is all about.

Being ultra specialized and focused on Rhinoplasty means that I am good at what I do. I do not do brow lifts and tummy tucks. I am not a jack of all trades so the care that my patients get, whether it is a nose job or Botox or Restylane injections, is provided with meticulous skill. I treat the families of members of congress, celebrities, FBI members, diplomats, doctors and other surgeons, students, school bus drivers, carpenters and engineers. I like being honest and not just pumping any and every patient full of fillers just to pay my rent. My patients look good and natural. I see them and listen to them. I diagnose their problem and make sure they understand it for themselves. And if there is a solution, I offer it but they are ultimately the ones who make the decision.

Just like athletes, artists, and virtually all kinds of professions, a certain surgeon could be simply better than the other. But when it comes to Rhinoplasty, Dr Shervin Naderi is the name to remember.
